Cities and Climate Change Initiative - CCCI

A global programme with strong traction in the Asia-Pacific Region

Cluster 1

City level support

- Climate Change Strategies and plans
- Adaptation/Resilience and Mitigation
- Mainstreaming into existing plans
- Support priority sectors / communities
- Linking cities to finance

Cluster 2

National Policies / Multilevel Governance

- Urban Policies
- Climate Change Policies
- Urban climate change finance

Cluster 3 & 4

Partnerships / knowledge management

- Joint programming
- Capacity Development / Advocacy
- Thematic communities of practice

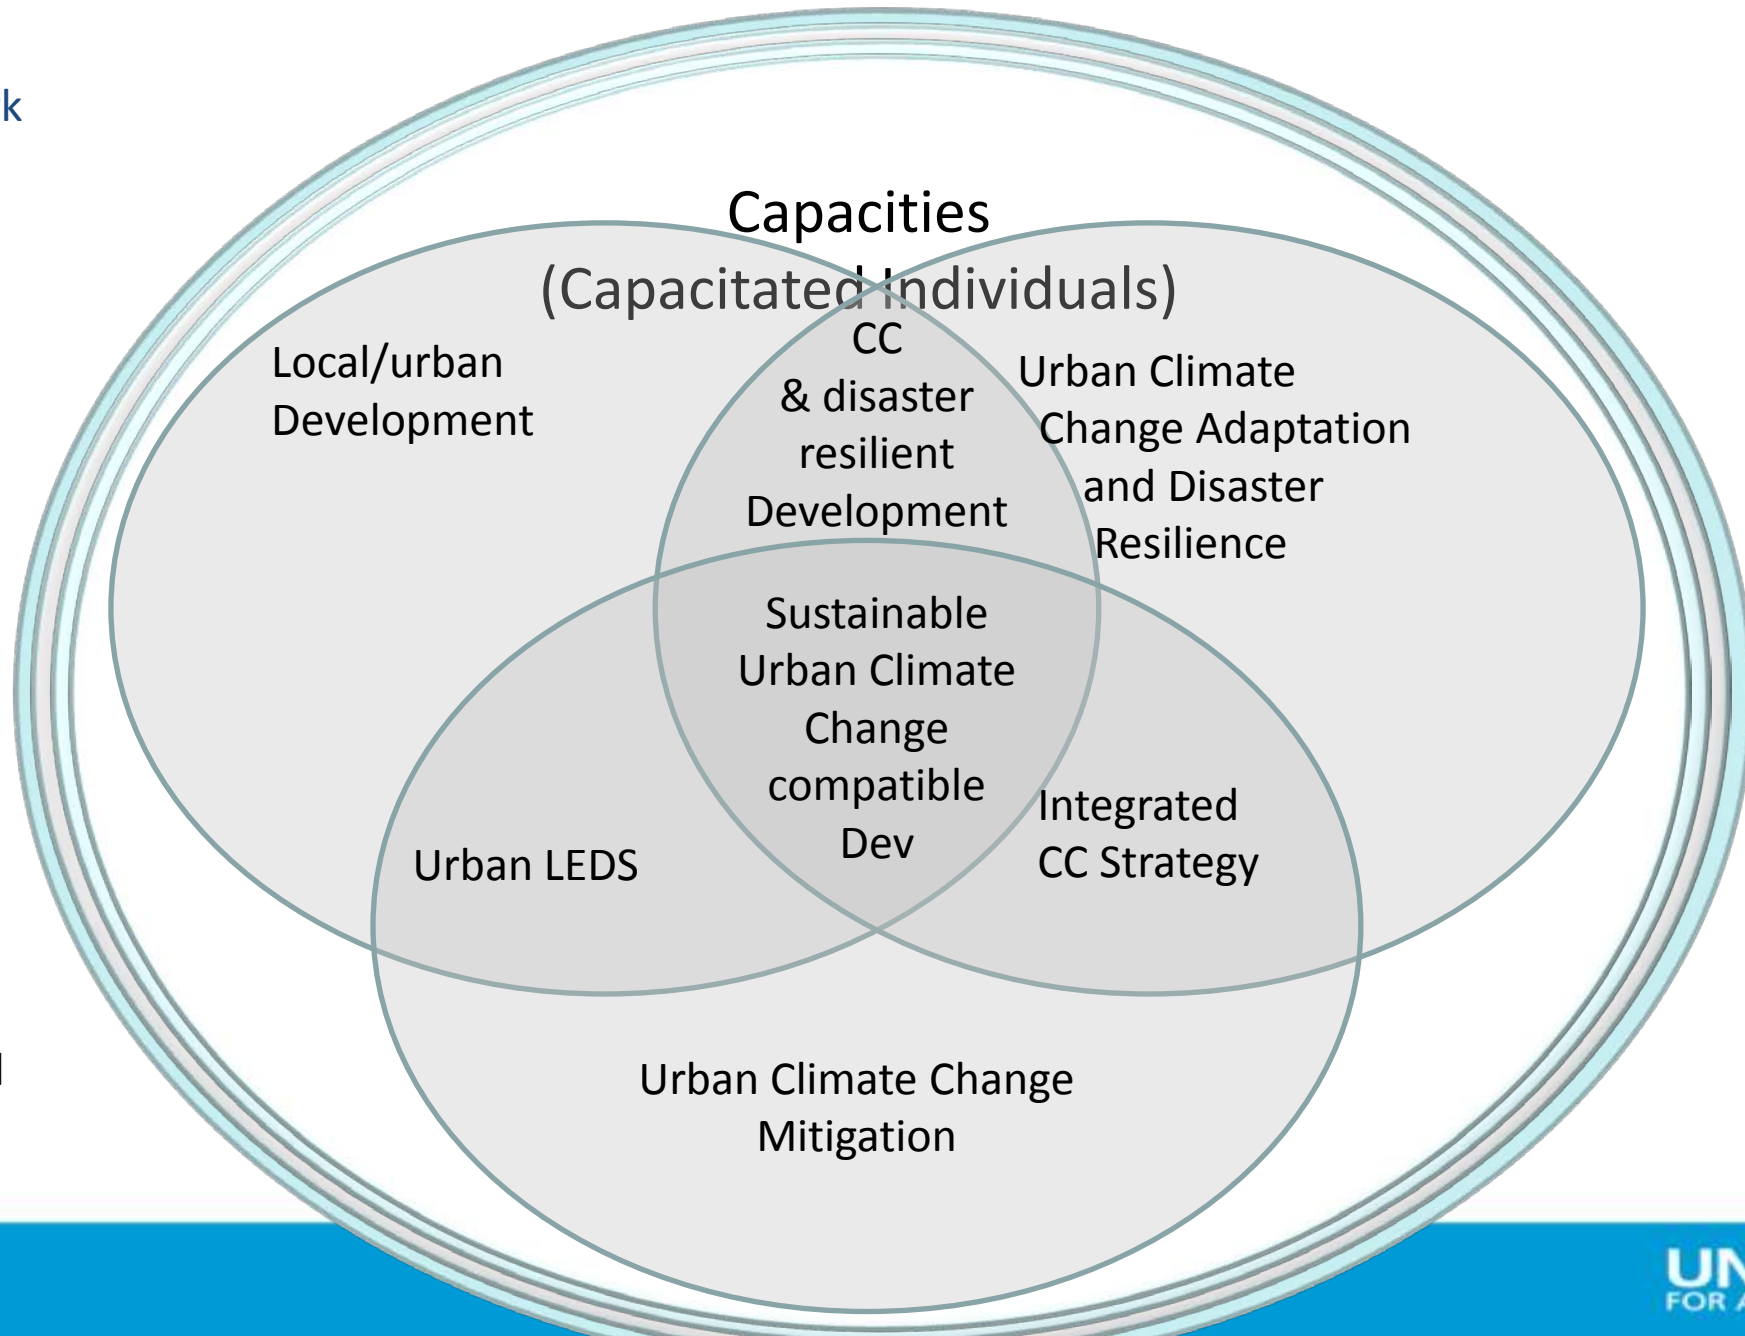

CCCI: Sustainable, resilient and climate smart urban development

National Framework

- Policies
- Financing
- Capacities
- Institutions

Local Action

- Sustainable
- Resilient
- Low Emission

Global and Regional Processes

CCCI in ASEAN

Support to local and national governments – entry points

ASEAN Countries	Key Climate Change Activities
Cambodia	  
Indonesia	  
Lao PDR	    
Myanmar	      
Philippines	       
Viet Nam	  

Regional Pipeline Activities

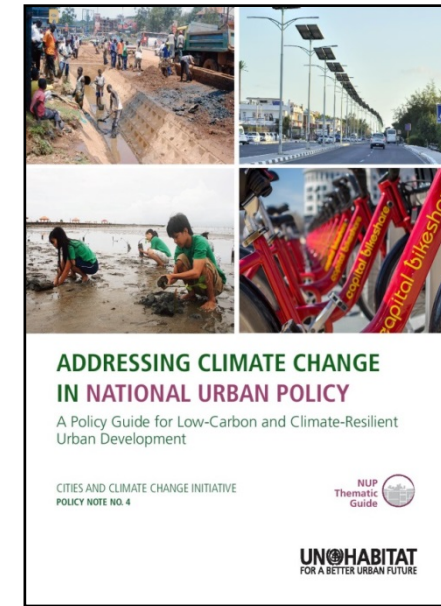

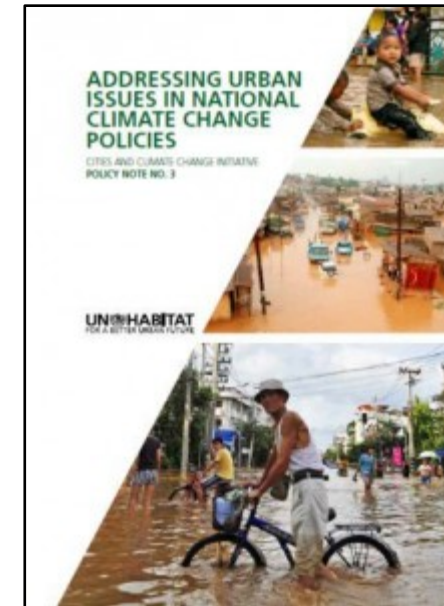

- Support to Covenant of Mayors
- Urban NAPs / Urban NDC support
- UN – ASEAN Partnership

Climate Change and Resilience Tools

National Policy

Climate Change and National Urban Policy

- Addressing Urban Issues in National Climate Change Policies
- Addressing Climate Change in National Urban Policy
- “How-to Tool for Asia currently being developed based on case studies from six countries in Asia and the Pacific including:
 - Myanmar
 - Philippines
 - Viet Nam

Climate Change and Resilience Tools

Low Emission Development

- Vertical Integration for Low Emission Development
Viet Nam and Philippines
- Urban LEDS
Indonesia, Lao PDR

Supported by:

Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety

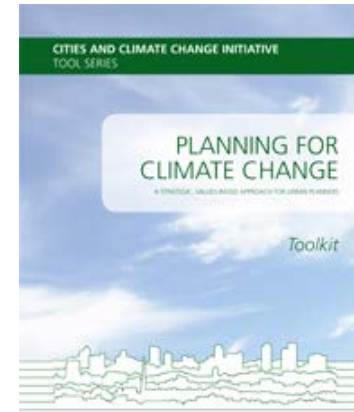

Climate Change and Resilience Tools

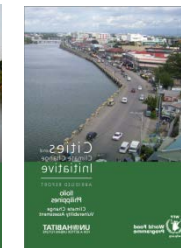

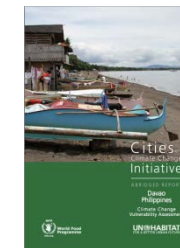

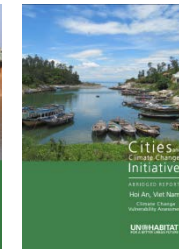

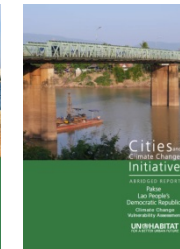

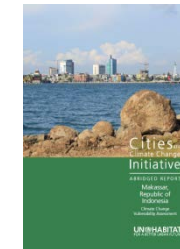

City-level resilience and climate change action planning

Planning for Climate Change

- Tool and Guide for cities
- Tool for communities

UN HABITAT
FOR A BETTER URBAN FUTURE
